Benefon Esc! Sales Package

- Benefon Esc! GSM900/1800 + GPS personal navigation phone
- Helix antenna
- 900 mAh li-ion battery
- Fast charger
- BeneWin Pro PC software on CD + serial data cable
- User manual
- Free subscription to Genimap mobile map service. Free World map plus one year license for 500 map tiles of users choice
- Free Benefon Esc! Advice service

Benefon Esc! Accessories

- Fast mains charger
- Cigarette lighter charger 12V
- Hands-free (HF) headset kit
- Digital, full-duplex, plug-in HF car kit
- Vehicle or boat cradle
- Bike / multi-purpose mounting brace
- Data and NMEA0183 cable
- External active GPS antenna
- Cross-country antenna
- Trendline carrying case
- Outdoors carrying case

Hands-free (HF) solutions

Plug-in HF car kit

Easy-to-install HF car kit with digital voice quality

- Quick and easy to install in car
- Plugged in the 12 V cigarette lighter
- Can be moved from one car to another
- Car cradle recommended
- Good voice quality (DSP)
- Includes: HF-unit with speaker, electronics and system connector, microphone, user manual

Portable HF kit

- Earpiece, microphone and cable
- Noiseless
- User can select automatic answer for incoming calls

Vehicle solutions

Vehicle holder

- Includes holder and installation plate
- External GPS antenna can be used

Bike / multi-purpose mounting brace

- Permits mounting of the Vehicle holder to a tubular structure, e.g. bike or boat steering gear
- Holder can be turned to optimal direction

BeneWin Pro

To connect phone to PC or PDA. Includes serial cable to PC com port, software on CD and user manual.

GSM data and fax 14.4 kbps (network dependant) over AT commands. No modem driver needed on PC, modem settings are sufficient (included on CD).

Cable with two serial connectors: GSM data and NMEA0183 navigational data can be transferred simultaneously.

BeneWin PC software:

- Manage waypoints and other navigational data
- Manage phone settings
- Edit and back up phone book memory on phone and on SIM
- Send and receive SMS messages from PC keyboard
- Compose and change ringing melodies with BeneWin Maestro

Antenna Solutions

External active GPS antenna

External GPS antenna with coaxial cable and phone connector. Magnetic attachment to e.g. car roof. Includes low-noise amplifier

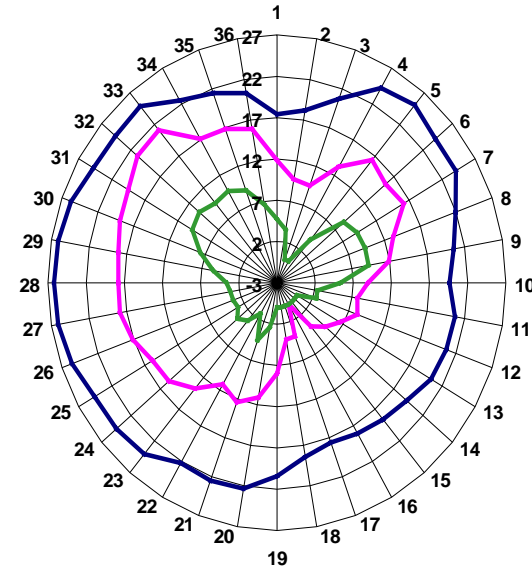

Use when visibility of GPS satellites is obstructed, for example inside building.

Cross-country GSM antenna

The standard helix antenna is easily user-changeable to an optional 1/2 wavelength dipole antenna, thanks due to the precision SMA antenna connector.

1/2 wavelength dipole has excellent efficiency and it is very insensitive to external loading, due to its minimal coupling to the user.

Best possible performance in transmission and reception.

Carrying Solutions

Outdoors carrying case

- Easy to attach to backback strap or to belt
- Easy and fast to read map or compass indicator
- Permits the GPS antenna to be pointed optimally
- Protects the instrument
- Convenient net pouch to store small objects or to house a heating pad

Trendline carrying case

- Stylish belt carrying case

Batteries

Standard 900 mAh Li-ion battery

- Phone weight 177 g
- GSM standby operating time 55 - 155 h
- GSM talk time 2 h 30 min - 8 h
- GPS operating time 5 h - 34 h

Power battery 1200 mAh Li-ion

- Phone weight 198 g
- GSM standby operating time 72 - 200 h
- GSM talk time 3 h 30 min - 10 h
- GPS operating time 7 - 45 h
